

Garden-Bowling DIY

What You Need

1. At least six large, empty PET bottles
2. Filling for the bottles (e.g. pebbles or water)
3. Printed Kotányi paper point-score ribbons
4. Adhesive (glue or tape)
5. Ball

How to Play

1. Wash out PET bottles and remove the label.
2. Fill the PET bottles to about one quarter with something heavy (e.g. pebbles or water) so that they are stable standing in the grass.
3. Cut out the point-score ribbons from the game templates on the marked line and attach them to the bottles with tape or glue.
4. Set up bottles in a pyramid (like bowling pins) in the garden and take turns trying to knock them over with a ball from a set distance!
5. At the end, the points of the toppled bottles are added up - the winner is the one who has acquired the most points after a previously determined number of rounds!

Hacky Sack Game DIY

What You Need

1. Some paper plates (or something similar)
2. Printed Kotányi game template
3. Adhesive (glue or tape)
4. Hacky sack or a ball with low bounce

How to Play

1. Cut out the point markers from the game templates on the marked line and attach each to the center of a paper plate with tape or glue.
2. Arrange the paper plates with the point markers attached on the lawn in any order desired.
3. Aim at the paper plates with a hacky sack or a ball. If the ball stays on a plate, you win the respective number of points. Whoever has collected the most points after a given number of rounds is the winner of the game!

Bonus: Hacky Sack DIY

What You Need

1. Two to three balloons
2. Half a cup of rice
3. Funnel
4. Scissors

*Check out the
video tutorial!*

How to Craft

1. Stretch the first balloon a little (by blowing it up and letting the air out) and fill in the half cup of rice with a funnel. Knot the balloon tightly at the neck so that the rice is balled up and cut off the protruding balloon neck.
2. Now cut off the neck of the second balloon. Put the balloon with the cut neck over the first balloon so that the knot is hidden. For even more hold, this step can be repeated with a third balloon.
